

Overview of Music Programme

Do you want to express yourself through music?

Reflecting our vibrant school community, we appreciate a rich variety of different music genres. Music has a positive influence on the development of young adults, including increasing the capacity of the memory, sharpening the concentration, fostering self-expression, promoting social skills and improving reading and comprehension skills.

We offer instrumental lessons for individuals or small groups, with popular choices including vocal training, piano, violin and guitar.

Key Details

Learn the Piano with Ikuko!

Acclaimed for her 'subtle sonority and fascinating colourful tones' (Der Kessener), the Japanese pianist Ikuko Inoguchi has been excelling both as a concert pianist and as a performer-scholar since completing her first doctorate (Doctor of Musical Arts) in the US in 2009. After holding a Visiting Scholar Fellowship at the Institute of Musical Research in London from 2010 to 2011, she was awarded a PhD from City University London in May 2018.

Ikuko has enjoyed international appearances as a soloist and a collaborative pianist in Japan, the US and Europe. Bringing artistry and scholarship together, she has given a number of lecture-recitals at regional, national and international conferences and symposiums.

Currently, Ikuko is Teacher of Music and Piano at Padworth College and working as an accompanist at City University London.
